Joint Logistics (Distribution) Joint Integrating Concept Update

Joint Concept Steering Group
25 August 2005

Briefing Outline

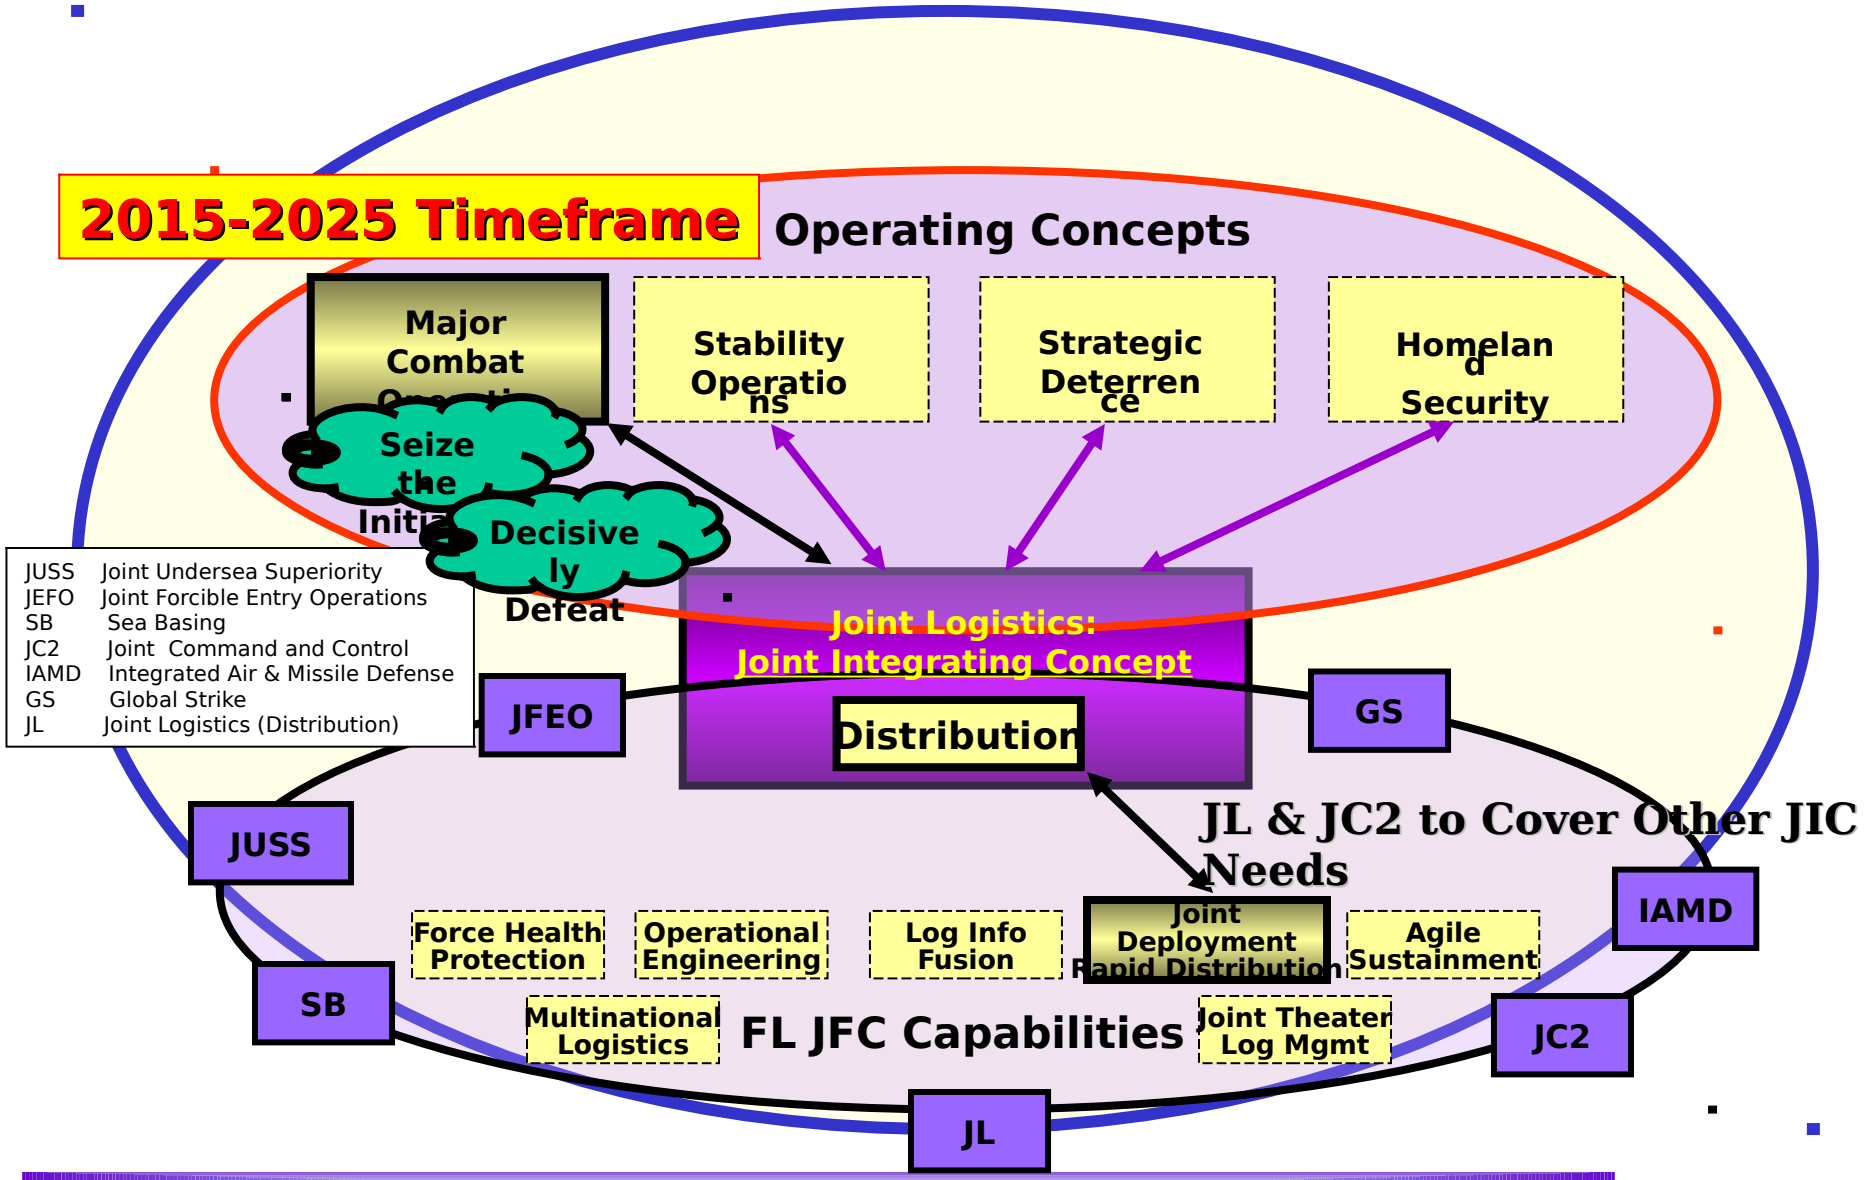
- *JIC Purpose*
- *JIC Background*
- *GO/FO Staffing Feedback*
- *Way Ahead*

What is the JL (D) JIC!

A DoD collaborative effort Assessing and Analyzing today's Joint Distribution problems to create solutions for the Future (2015-2025)

- Army and TRANSCOM co-lead effort
- Marine Corps head writer for Concept
- Army head writer for CONOPs
- Representatives from TRANSCOM, Army, Air Force, Navy, Marine Corps, JS J-6, USSOCOM, JFCOM, COCOMs

Tasking / Joint Operations Concept Relationships



Joint Logistics (Distribution) Joint Integrating Concept

Purpose of a JIC:

- Support **rigorous assessment / analysis** of capability gaps & excesses via Capabilities Based Assessment
- Derive **future materiel and non-materiel** distribution **solutions** across the domains of Doctrine, Organizational, Training, Materiel, Leader Development, Personnel, and Facilities (DOTLMPF)
- Drive **policy, training, organizational changes**
- JICS are conceptual – basis for effects – avoid detailed solutions

Scope of This JIC:

Conceptual description of **joint deployment & distribution enterprise** and how the operation of that enterprise could enhance **conduct of joint operations across the full range of military operations in the period 2015-2025**.

Central Idea

If we can:

- Build a single deployment & distribution enterprise.
  - capable of rapidly delivering and positioning joint forces
  - at point of need and back again
- Augment with scalable, and agile distribution capabilities
- Network the entire enterprise
  - In real-time with shared knowledge
  - Total asset visibility

Then the results will be:

- Enhanced deployment of forces & distribution
- Rapid integration of theater distribution capabilities
- Seamlessly linked joint forces

Bottom line: Deliver the right stuff, to the right place, at the right time to create operational effects.

GO/FO Staffing Feedback

Comment Summary

Joint Concept
